

# ***Neighborhood Revitalization Zone Themes***

---

In surveying the neighborhood assets and challenges, certain themes emerge. These themes stand for not only those things we find to be lacking in our neighborhood, but also those that make our neighborhood the kind of place we work hard to preserve. The themes also overlap and influence each other. The most persistent of these can be distilled to the following:

- ◆ *Building neighborhood wide community*
- ◆ *Enhancing recreational opportunities for all members of the community*
- ◆ *Preserving the historic character of our neighborhood*
- ◆ *Promoting homeownership and high quality rental housing*
- ◆ *Protecting quality of life including public safety and the environment*
- ◆ *Revitalizing our commercial district*
